

The English Class Placement Test is designed to help teachers place students in Grade 7 at the right level of the English Class series. Each test contains 100 multiple-choice questions and is designed to last for 45 minutes. If the students get less than 60% of the answers correct, we recommend using English Class A2+. If they get over 60% of the answers correct, we recommend using English Class B1.

Apart from the two levels of English Class series available for Grade 7, Pearson offers Repetytorium dla klasy 7. We recommend this publication to teachers who wish to focus on exam preparation and feel their students in Grade 7 would benefit more from an exam-oriented coursebook.

Group A

No.	Key	Language Area
